

Letter of Recommendation

To Whom It May Concern:

The United Nations Office for Project Services (UNOPS), Lebanon has used services from Advanced Car Rental, Beirut, Lebanon for a period of three months.

We would like to state our satisfaction with the quality of service, standard of vehicles and pricing that we have had supplied from Advanced Car Rental and in particular Mr. Shady Younis.

During this period UNOPS has used a variety of vehicles and we have required flexibility on behalf of our service provider. We have changed vehicle supplier twice until finding Advanced Cars. Their pricing was more competitive and the services included in the contract were much needed and gave us a greater level of security in our operations.

I would take this opportunity to thank Mr. Younis on behalf of UNOPS and at the same time recommend his company to United Nations Agencies and International Organizations that have requirements in vehicle support here in Lebanon.

Best regards,

**Ian Gough
